

NCC streamlines Supplier Management with Ivalua's Spend Management Platform

May 28, 2024

Nordic construction company NCC Sweden has announced its selection of Ivalua's spend management platform. This partnership signifies NCC's commitment to digitizing and enhancing its supplier management capabilities.

NCC, renowned for its expertise in complex construction projects, boasts a workforce of 12,200 employees and SEK 57 billion in revenue (2023). Listed on Nasdaq Stockholm, NCC is a key player across various construction sectors, including building and infrastructure contracting, asphalt and stone materials production, and commercial property development.

To optimize its supplier landscape, NCC sought a comprehensive solution. Ivalua's platform addresses NCC's specific needs in supplier relationship management, onboarding, risk, and performance management. This implementation will empower NCC with greater control over supplier operations while enabling valuable data-driven insights for effective risk monitoring and mitigation.

"We selected Ivalua due to its ability to effectively meet our complex requirements with its unified, flexible platform and proven track record in the construction industry. For us, ensuring a healthy supplier base is not just a matter of compliance with laws and regulations; it's also the foundation of a competitive supply chain. With this, NCC will be able to enhance our efforts in this prioritized area," says Emma Papakosta, Head of Purchasing Development & Digitalization, NCC Group.

"Ivalua's platform effectively meets NCC's current requirements and will seamlessly adapt to support its future needs as its business and the market requirements evolve," said Dan Amzallag, Chief Operating Officer (COO) at Ivalua. "We are delighted to enable the procurement digitization of a leading player in the

construction industry in the Nordics and we look forward to supporting its transformational roadmap over the coming years.”
