

PFES Secures Top Spot in Engineering News-Record's 2024 Program Management Rankings

June 28, 2024

PFES, a leading provider of strategic consulting services for the Energy and Utility sectors, continues its impressive growth trajectory. The firm has been recognized by Engineering News-Record (ENR) as one of the Top 50 Program Management Firms for 2024, marking the fifth consecutive year of receiving this prestigious honor. PFES' climb to #24 in the 2024 rankings signifies its continued rise within the industry.

ENR also recognized PFES as a top US Construction Management / PM-for-Fee Firm, solidifying its position as a comprehensive solutions provider for the AEC industry. This comes at a time when the industry faces ongoing challenges, including labor shortages, rising construction costs, and heightened pressure to mitigate project risks. According to ENR, these factors are driving a trend toward increased reliance on firms like PFES. Clients are seeking expert guidance in navigating project complexities, identifying cost savings, and fostering collaboration across stakeholders.

"We are incredibly proud to be acknowledged as a top program management firm by ENR," said Tim Simmerly, CEO of PFES and President of its parent company, The Planet Group. "Our unwavering commitment to a safety-first culture and innovative consulting solutions allows us to deliver exceptional value to our clients' capital programs. This recognition is a testament to the hard work and dedication of our talented employees, who are instrumental in achieving our mission to become the preeminent PM/CM advisory and consulting firm within the Utility sector."

Founded in 2012, PFES boasts a proven track record of managing billions of dollars in capital projects across power generation, power delivery, and natural gas distribution. The company's year-over-year growth reflects the trust that Utilities and Energy companies place in PFES' expertise. Their ability to deliver large-scale capital expenditure projects efficiently and cost-effectively has positioned them as a

trusted partner within the industry.

PFES offers a comprehensive suite of solutions tailored to the specific needs of Utility and Energy clients, including:

- Advisory Services
- Program & Project Management
- Project Controls & Data Analytics
- Construction Management / EPCM
- Owner's Engineering
- Safety Management
- Risk Management

By providing a full spectrum of services, PFES empowers its clients to navigate the complexities of capital projects with confidence, ensuring successful project outcomes.
