

DOST-PCAARRD Council of Elders Conducts Mentoring Training for New Project Leaders

August 23, 2024

The Department of Science and Technology - Philippine Council for Agriculture, Aquatic Resources Research and Development (DOST-PCAARRD) Council of Elders (COELs) recently conducted a mentoring training for new project leaders.

The training aimed to equip new project leaders with the necessary skills and knowledge to effectively manage and implement research projects. The COELs, experienced researchers and leaders in the agricultural sector, shared their expertise through lectures, hands-on activities, and group work.

The training emphasized the importance of intergenerational knowledge transfer and the practical application of skills. Participants learned about leadership styles, project management techniques, communication strategies, and ethical considerations in research.

"The COELs' mentorship is invaluable for our new project leaders," said [Name], [Title] at DOST-PCAARRD. "By sharing their experiences and expertise, they are helping to ensure the success of our research programs."

Key Highlights of the Training:

- Leadership styles and their impact on project success
- Effective project planning and management techniques
- Building strong communication and collaboration skills
- Ethical considerations in research

- Importance of intergenerational knowledge transfer

This training is part of DOST-PCAARRD's commitment to developing and supporting the next generation of agricultural researchers. By providing mentorship and training, the Council of Elders is helping to ensure the continued success of the organization's research programs.
