

HTS Interiors Wins Design and Build Project of the Year for Meta World Headquarters at the Design Middle East Awards 2024

December 5, 2024

HTS Interiors celebrates a significant achievement with their victory in the prestigious Design and Build Project of the Year category at the Design Middle East Awards 2024. This award recognizes their outstanding work on the Meta World Headquarters, a project that reflects their dedication to pushing the boundaries of design.

The win marks a culmination of excellence, following HTS Interiors' recent triumph at the CID MENA Awards where they secured the title of Design and Build Firm of the Year 2024. This latest recognition adds to their impressive list of nominations at the Design Middle East Awards, which included Design and Build Firm of the Year, Interior Design Firm of the Year, and several others.

"It is an honor to be recognized by Design Middle East for Meta World," said Nitin Nadukandy, Founder and CEO of HTS Interiors. "This project embodies our commitment to innovative design, and the team's tireless efforts in delivering exceptional results within budget are truly commendable. I extend my gratitude to everyone involved, particularly JTCPL Designs for their exceptional vision that helped create another extraordinary environment for Meta World."

A Visionary Workplace

Situated in Dubai's iconic Opus Tower, the Meta World Headquarters draws inspiration from the architectural genius of Zaha Hadid. Spanning 6,000 square feet, it transcends the concept of a traditional office, offering a dynamic space that reflects Meta World's forward-thinking approach. The design

seamlessly integrates fluidity, movement, and cutting-edge technology, creating a transformative experience for its users.

Key Features of the Meta World Headquarters

- **Technology Integration:** State-of-the-art technology empowers creativity and communication. Interactive meeting rooms and advanced audiovisual systems foster innovation within the space.
- **Light and Well-being:** Expansive windows bathe the office in natural light, promoting a bright and uplifting atmosphere. The strategic use of windows not only enhances aesthetics but also prioritizes employee well-being.
- **Functional Layout:** The open-plan design incorporates designated areas for focused work, ensuring each element contributes to a cohesive narrative.
- **Sustainable Design:** Eco-friendly materials and practices are prioritized, resulting in a workspace that is both environmentally responsible and aesthetically pleasing. Biophilic design elements further elevate employee well-being by fostering a healthy and vibrant environment.

A Testament to Design Excellence

HTS Interiors' win at the Design Middle East Awards solidifies their position as a leader in interior design and fitout. The Meta World Headquarters exemplifies innovative and sustainable design, seamlessly blending technology, wellness, and creativity into an inspiring work environment.
