

# Manchester United Secures Government Support for Stadium Redevelopment Project

January 28, 2025

**Manchester United today announced that it has received significant backing from the British government for its ambitious project to regenerate the area surrounding Old Trafford stadium.**

Rachel Reeves, the UK's Treasury chief, expressed strong support for the project, highlighting it as a "shining example" of the government's plans to stimulate economic growth.

At the core of this project lies the redevelopment of the iconic Old Trafford stadium, with plans to either significantly expand the current stadium to accommodate 87,000 spectators or construct a new, state-of-the-art stadium with a capacity of 100,000.

Omar Berrada, CEO of Manchester United, welcomed the government's support, stating, "This represents a once-in-a-lifetime opportunity to not only enhance our matchday experience but also to drive significant regeneration in the surrounding area."

While Manchester United will lead the stadium development, the club emphasized the crucial role of public sector support. This includes investments in improved transport infrastructure and the development of new housing options in the vicinity of Old Trafford.

This announcement signifies a major step forward in Manchester United's vision to create a world-class stadium and contribute to the revitalization of the surrounding community.
