

monday.com Named a Leader in Gartner Magic Quadrant for Fourth Consecutive Year

September 23, 2025

monday.com (NASDAQ: MNDY) today announced it has been recognised as a Leader in the 2025 Gartner® Magic Quadrant™ for Adaptive Project Management and Reporting (APMR). This marks the fourth year in a row the company has received this recognition.

For the second consecutive year, monday.com was positioned the furthest on the **‘Completeness of Vision’** axis and the highest on the **‘Ability to Execute’** axis.

The company continues to demonstrate its leadership in helping organisations of all sizes manage complex projects, align teams, and deliver results at scale through its innovative, adaptive approach to project and work management.

A Testament to Innovation and Performance

Daniel Lereya, Chief Product and Technology Officer at monday.com, said: “We believe that being recognized as a Leader in the Gartner Magic Quadrant for APMR for the fourth year in a row is more than just validation — it’s a testament to our strong innovation and performance. Executing on our vision to build products people love for managing the core of their work, we’re meeting our customers where they are on their AI journey. By embedding AI into our full product suite, we made a significant shift from a platform that manages work to one that does the work for you, allowing teams to move faster and focus on what truly drives impact. We’re committed to expanding our platform to ensure it continues to be a key differentiator for organizations that are seeking a competitive edge.”

The company's product vision continues to push the boundaries of modern project management. Recent solutions and capabilities include:

- **Strategic Alignment:** New features allow leaders to manage large-scale strategic initiatives and ensure projects remain aligned with overall goals without slowing down teams. Tools like Portfolio Dashboards provide a live pulse on progress and performance.
- **Advanced Resource Management:** To improve project planning, monday.com has introduced new capabilities that give leaders better visibility. The **Resource Directory**, **Resource Planner**, and **Capacity Manager** provide a complete view of who is available, their skills, and how to best allocate them to optimise resources and prevent burnout.
- **AI-Powered Platform:** AI is now seamlessly embedded throughout the platform to help with critical challenges, from predictive risk management to AI-generated executive reporting. The AI continuously scans structured and unstructured data to surface early risk insights and flag what needs attention.

This latest recognition adds to monday.com's track record, as it has also been named a Leader in two other Gartner Magic Quadrant reports for **Collaborative Work Management** and **Marketing Work Management**.
