

# Rudolph and Sletten Awarded \$960 million UCSF Children's Hospital Contract

September 12, 2025

**Rudolph and Sletten, a subsidiary of the construction company Tutor Perini Corporation, has been awarded a contract worth approximately \$960 million to build the new UCSF Benioff Children's Hospital in Oakland, California. The project will now move into its full construction phase.**

The project's scope of work includes constructing a new hospital building that will be around **277,500 square feet** and consist of seven levels above ground, a full basement, and a separate parking garage with a rooftop heliport. The contract also includes the installation of a site services trailer and the demolition of three existing structures to prepare the site.

Construction is scheduled to begin in **September 2025**, with substantial completion anticipated in **2031**. The contract value will be added to the company's backlog in the third quarter of 2025.
