

# PlanHub Becomes AGC Capstone Partner, Expanding Preconstruction Tools and Discounts for Members

January 23, 2026

**PlanHub has announced a new national Capstone and Member Discount partnership with the Associated General Contractors of America (AGC), giving AGC members preferred access, exclusive benefits, and special pricing for its preconstruction platform.**

As an AGC Capstone Supporter, PlanHub joins a select group of organisations that support AGC's mission to strengthen and advance the US construction industry. The partnership provides contractors and suppliers across AGC's nationwide membership with access to technology designed to simplify preconstruction, improve visibility of project opportunities, and strengthen collaboration across the supply chain.

AGC represents thousands of construction firms through its chapters across the United States. Through this collaboration, members can use PlanHub's tools for project discovery, bid management, and contractor-supplier connections, helping them identify more opportunities and pursue work more efficiently.

Ro Bhatia, CEO of PlanHub, said the partnership marks a significant step in the company's mission to modernise how contractors discover, pursue, and win work, adding that AGC members are industry leaders who can benefit from more transparent and connected preconstruction workflows.

Jeffrey D. Shoaf, CEO of the Associated General Contractors of America, said partnerships like this extend the value AGC delivers to its members, complementing advocacy, education, and events by offering

savings and access to practical tools that support business success.

The national agreement reinforces a shared focus on contractor-first innovation, aiming to help AGC members work faster, collaborate more effectively, and remain competitive in a rapidly evolving construction market.
